## PROFESSIONAL SUMMARY

---

Inspiring Professor bringing proven success in implementing technology-based curriculum delivery and student engagement (courses for about 1000 students). Passionate about fostering academic development, critical thinking and creativity for every student. Extensive background in research and university fundraising, she has a solid experience in successful managing multiple priorities with a positive and goal-oriented attitude. Her communicative and relational skills, mixed with an entrepreneur asset and research mindset, let her naturally be able to network and create fruitful academia-companies bridges.

### Areas of research interest:

Mind-technology interaction (i.e. communicative processes and socio-emotional dynamics related with the use of technology)

Digital psychotherapeutic processes

Trauma, emotional dysregulation, and problematic use of digital worlds and tools

Social man-made catastrophes, meaning-making and unconscious processes

---

## SKILLS

---

- Organizational Leadership
- Change Maker and Growth Management
- Networking
- Effective Communicator and Public Speaker
- Analytical and Critical Thinker
- Creative Problem Solver
- Strategic Vision and Partnership
- Systems Thinker
- Entrepreneurial and Innovative
- Curriculum Development and Positive Learning Environment
- Research Writing and Grant proposal
- Data analysis and Statistical skills

---

## WORK HISTORY

---

**Professor of Psychodynamic Psychology**, 03/2022 - Current

**Department of Philosophy, Communication, and Performing Arts - University of Rome3** – Rome, Italy

- Development and organization of 3 curricula in: 1) psychology of communication, 2) psychodynamic psychology/psychoanalysis, and 3) philosophy of psychoanalysis, serving about 1000 students
